

# THE ICB PRESENTS...

## DIABETES HEART FAILURE

Wednesday 14th June

7 pm - 8 pm

Delivered virtually via MS Teams

**THIS MEETING IS SPONSORED BY ASTRAZENECA**

ASTRAZENECA WILL HAVE A 10-MINUTE PROMOTIONS PRESENTATION  
SLOT AT THE START OF THE MEETING AS PART OF THE AGENDA

**Delivered by Dr Joe Martins**

*Dr Joe Martins is a Consultant Interventional Cardiologist RCP and BCS West Midlands Cardiology Speciality Advisor, Cardiology Clinical Service Lead. He is based at the Dudley Group NHS Foundation Trust. Dr Martins will lead the session and is happy to take questions.*

The Chair for the session will be Hitesh Patel, Pharmaceutical Adviser – Head of PCN Services PCN Lead Pharmacist – Sedgely, Coseley and Gornal (SCG) Pharmaceutical Public Health Team Dudley Integrated Health and Care NHS Trust

Diabetes and heart failure (HF) are both global epidemics with tremendous costs on society with increased rates of HF hospitalisation's and worsened prognosis when co-existing, making it a significant "deadly duo."

In this session, we will have an overview of heart failure and diabetes. Review the latest evidence and look at why certain T2D medications are now licensed for the management of heart failure. In light of these changes which patients can now be managed in primary care. Also how best to manage them and when is it appropriate to refer.
